## R Markdown

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see <http://rmarkdown.rstudio.com>.

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

```
df1 = read.csv('C:\\Users\\guesm\\Documents\\Methods of Data Science\\2020.csv')
df2 = read.csv('C:\\Users\\guesm\\Documents\\Methods of Data Science\\2021.csv')
```

```
library('ggplot2')
boxplot(df1$Ladder.score)
```

```
boxplot(df2$Ladder.score)
```

```
boxplot(df1$Social.support)
```

```
boxplot(df2$Social.support)
```
